

I have to stay home.

By Angus Olsen

Lots of people have to
stay home.

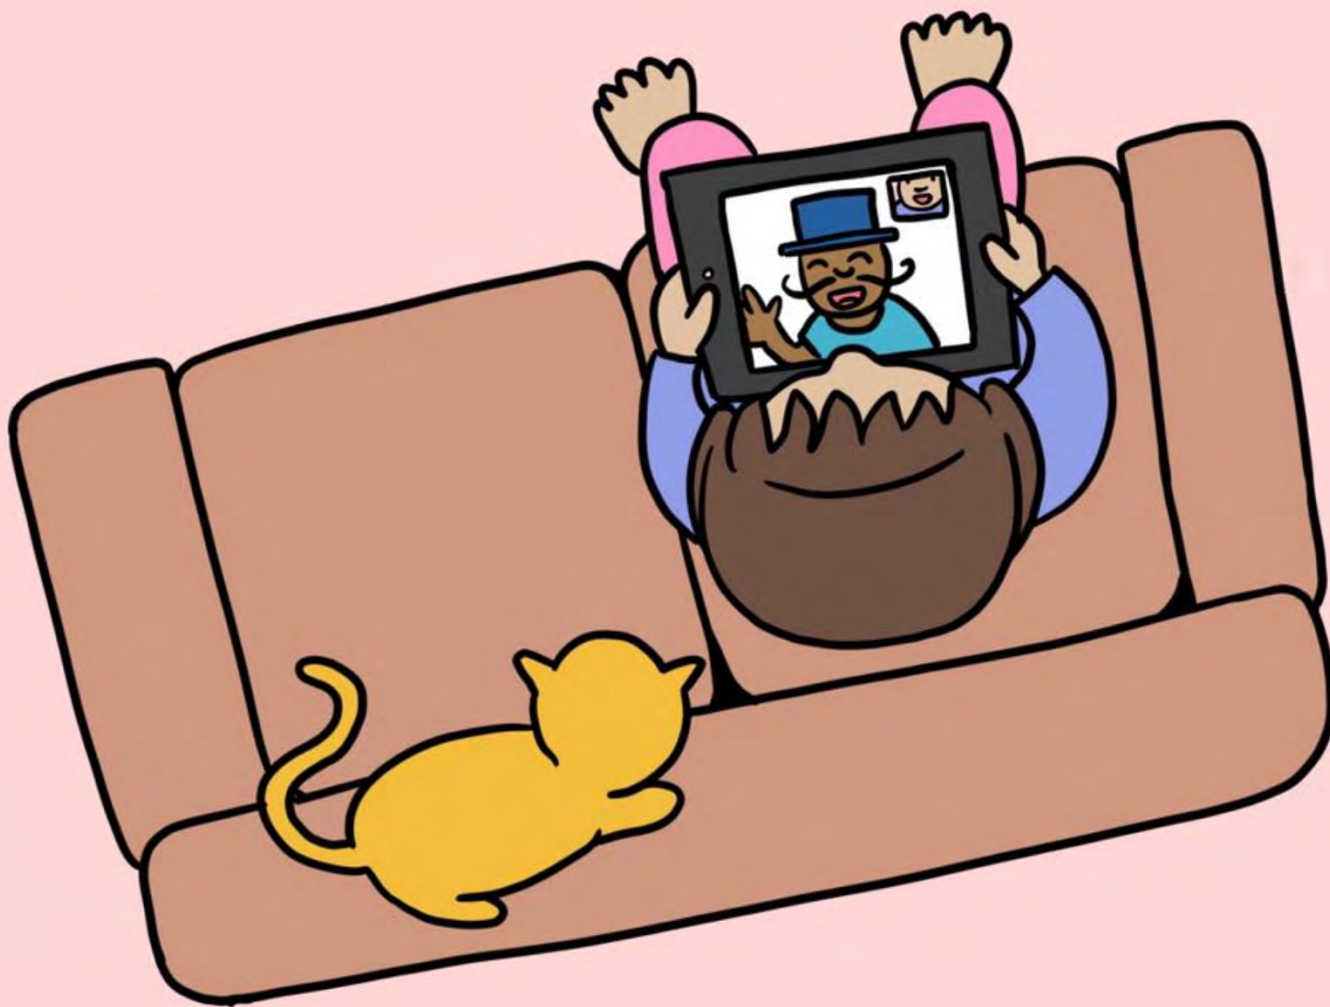

There is a dangerous sickness, we stay home
so we don't get sick and others don't get sick.

I do school at home now,
I like it because it's nice and quiet.

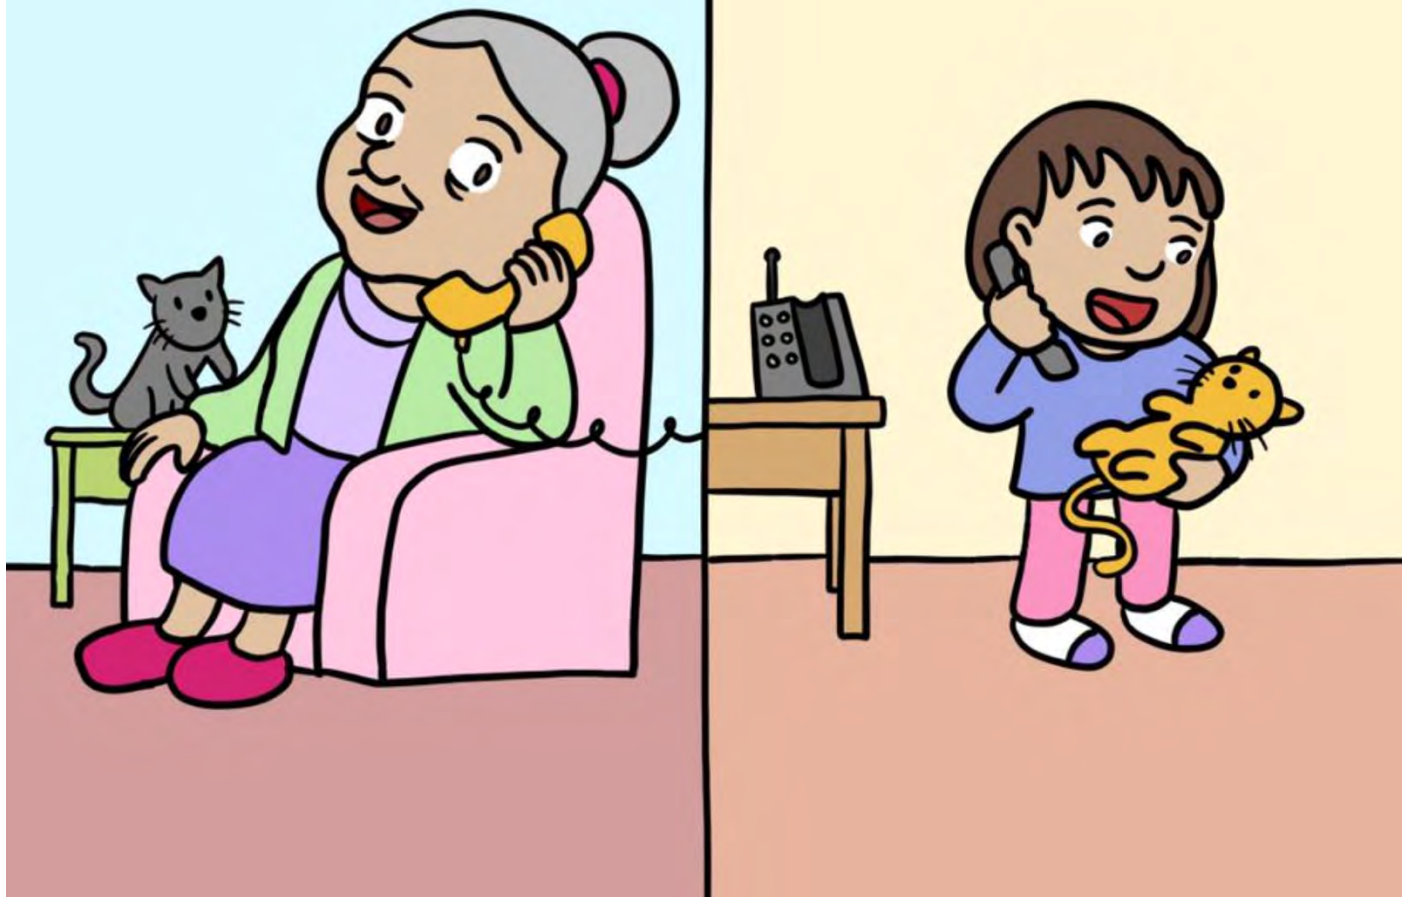

I talk to my friends on video chat,
we make funny faces.

I can't visit my
grandma.

So I talk to her
on the phone.

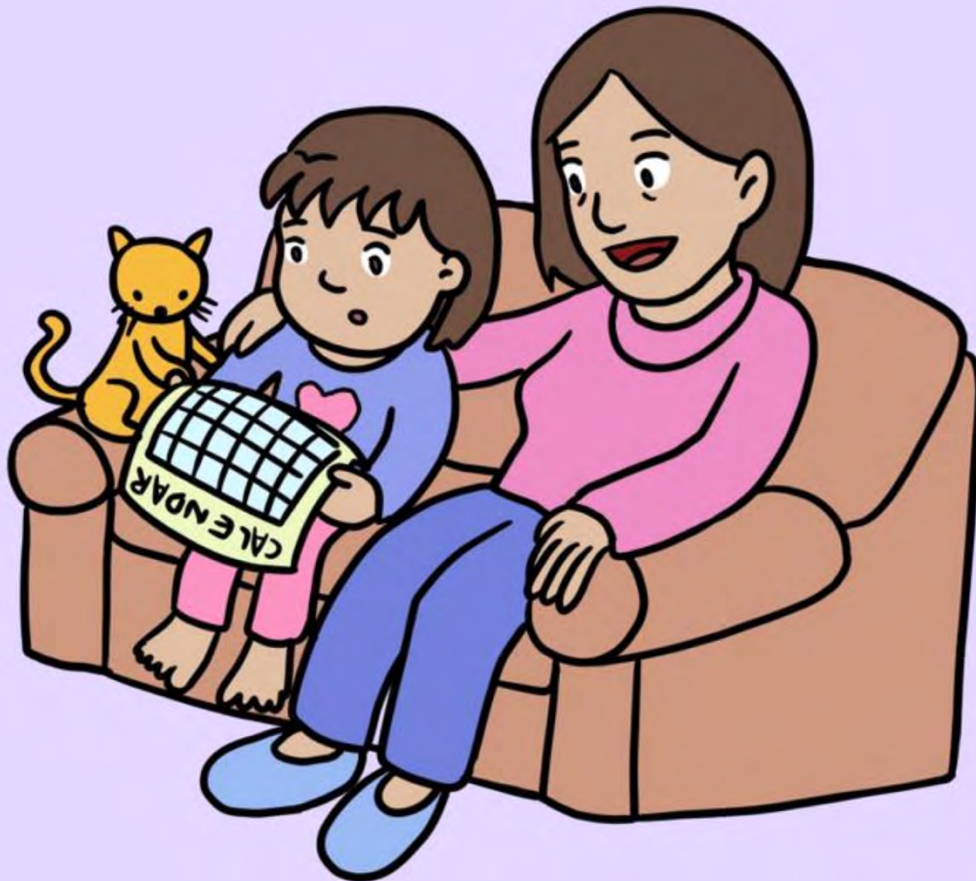

I wash my hands lots
and try not to touch
my face.

I like to exercise and feel the
sun on my face.

When I feel scared I talk to someone,
the sickness won't last forever,
but it will feel like a long time.

I am safe, I am careful.

My family loves me,
I love my family.
